2. Introduction

2.1. Overview

CUE brings a new solution to the market enabling the use of any Windows Mobile-based **Mobile Device** i.e. PDA, or Tablet PC running Microsoft® Windows® Mobile™ 2003 software for the Pocket PC, to run as a Cue System control panel. The wireless communication between the mobile device and control system is based on Wi-Fi (IEEE 802.11b or 802.11g) data communication. The mobile device is required to be equipped with a Wi-Fi module, and the control system uses a standard wireless access point connected to the CUEnet. The application for the mobile device is designed with Cue® Design Director software in mind, which is the standard programming tool for touch panel layout creation. The mobile device is required to have the pdCUE runtime software installed (supplied in the pdCUE software package). The pdCUE is suitable as the sole control panel in a system, or an additional control panel to a system. The pdCUE has excellent applications in commercial, educational, and residential systems. The advantage of the pdCUE is that it allows the user or users (anyone within the access point range) to access their control system without using a panel, but instead their PDA or Tablet PC.

4. Software Installation

4.1. Installation of pdCUE Manager

1. Before installing pdCUE Manager, ensure that **Microsoft ActiveSync 3.8** synchronization software is already installed on your computer.
2. Run the installation file on your computer and confirm the default options.

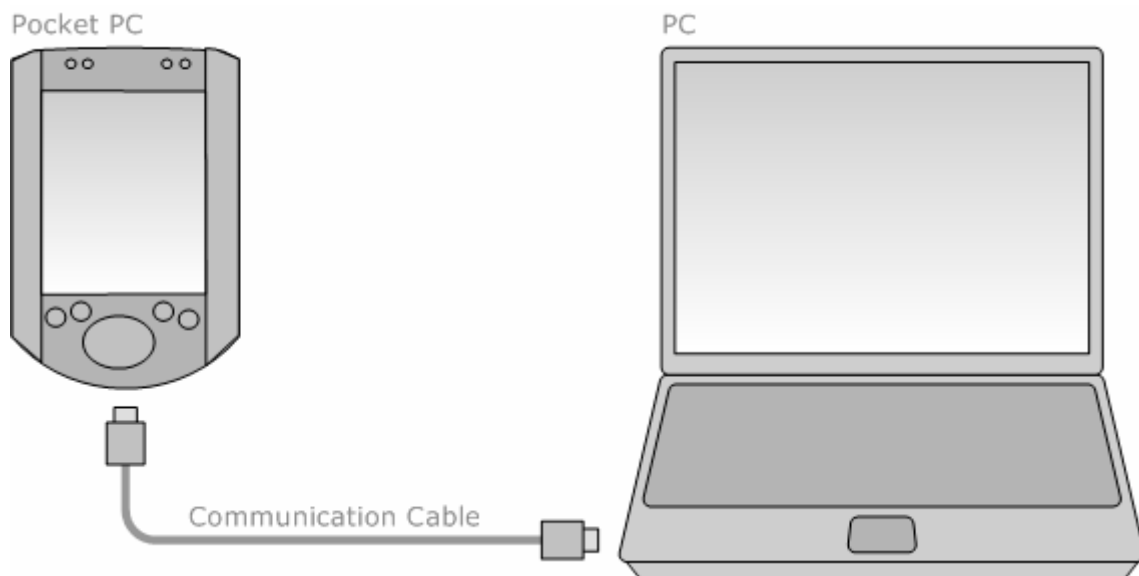

3. After successful installation, the **pdCUE Manager** program will be displayed.

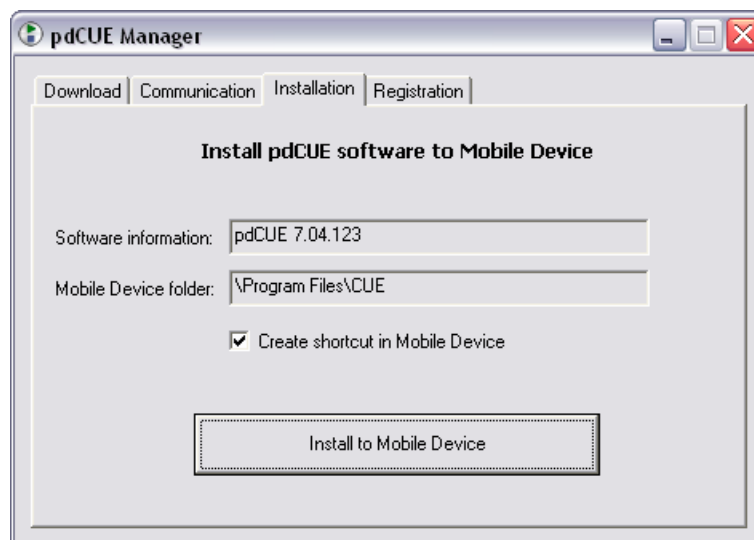

4.2. Installation and Registration of pdCUE

1. Connect a Mobile Device to your computer using communication cable as described below.

2. Before running pdCUE Manager, ensure that **Microsoft ActiveSync 3.8** is running and a partnership with Mobile Device is already established.
3. Run the pdCUE Manager program on your computer (Start-All Programs-Cue Director-pdCUE Manager).
4. Click the **Installation** tab.

5. Click on the button **Install to Mobile Device**, pdCUE will be installed on the connected device.

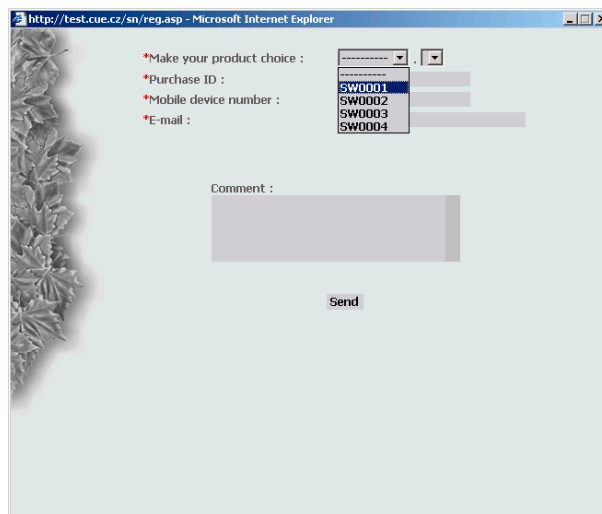

6. Click on the **Registration** tab...

7. Proceed to online software registration at www.cuesystem.com located under Support - Software registration.

4.3. Software Registration Procedure

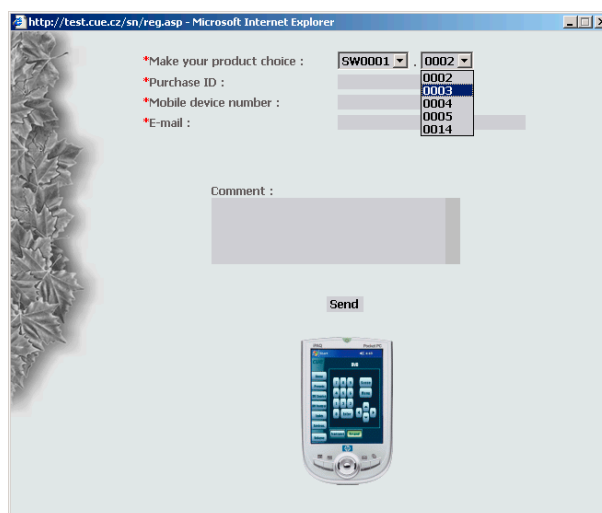

1. The online software registration is located at www.cuesystem.com under Support - Software registration.
2. In the initial screen, **select the type** of the purchased software
SW0001 pdCUE-S
SW0002 pdCUE-M
SW0003 pdCUE-L
SW0004 pdCUE-X
SW0005 pdCUE-S /d
SW0006 pdCUE-M /d
SW0007 pdCUE-L /d
SW0008 pdCUE-X /d

The screenshot shows a web browser window titled "http://test.cue.cz/sn/reg.asp - Microsoft Internet Explorer". The page has a decorative leaf border on the left. The registration form includes the following fields and options:

- *Make your product choice : A dropdown menu with a list of product codes (SW0001, SW0002, SW0003, SW0004) and a corresponding list of product names (pdCUE-S, pdCUE-M, pdCUE-L, pdCUE-X).
- *Purchase ID : A text input field.
- *Mobile device number : A text input field.
- *E-mail : A text input field.
- Comment : A large text area.
- Send : A button.

3. **Select the trailing part** of the serial number of the purchased software

This screenshot shows the same registration form as the previous one, but with the trailing part of the serial number selected. The "Make your product choice" dropdown is now set to "SW0001". The "Purchase ID" dropdown is set to "0002". The "Mobile device number" dropdown is set to "0003". The "E-mail" dropdown is set to "0014". The "Comment" field and "Send" button are still present. A small image of a mobile phone is visible at the bottom of the page.

4. Fill out all the compulsory information

Purchase ID - it is a number used for the license verification. It is stated on the printed version of the license (the purchase ID has to be written exactly as it appears on the license - upper / lower case letters matter).

Mobile device number - it is a string made of letters and digits generated by the pdCUE Manager software for registration (the Mobile device number is not case sensitive i.e. has not to be written exactly as it has been generated – upper / lower case letters do not matter).

E-mail - to this e-mail address the final copy of the registration will be forwarded to. Please type the e-mail address correctly as the data sent to your e-mail is dedicated for your later reference.

The screenshot shows a web browser window titled "http://test.cue.cz/sn/reg.asp - Microsoft Internet Explorer". The page contains a registration form with the following fields and values:

- *Make your product choice : SW0001 . 0003
- *Purchase ID : uag0TGf66N
- *Mobile device number : 000CF1967DAA
- *E-mail : example@example.com
- Comment : (empty text area)
- Send (button)

Below the form is an image of a mobile phone.

5. Receiving the **registration number**

If all items are filled out correctly, the application will display your registration code. At the same time the registration code will be forwarded to your e-mail address. If any of the items is entered incorrectly, the application will announce which menu item has to be corrected.

If you try to register the same product for the second time, please contact support@cue.cz.

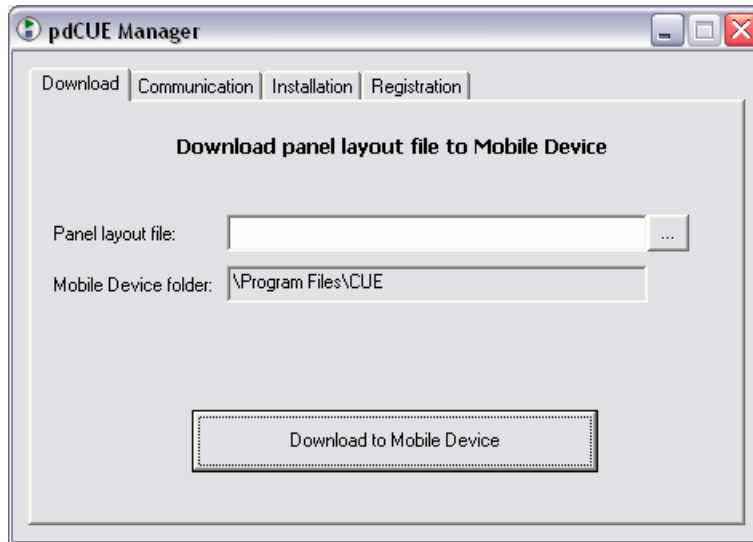

The screenshot shows the same registration form as before, but with the following changes:

- The "Purchase ID" field is now empty.
- The "Mobile device number" field is now empty.
- The "E-mail" field is now empty.
- The "Comment" field is still empty.
- The "Send" button is still present.
- Below the form, the registration code is displayed in red text: 05376D645203728787E1.
- Below the code, a message in red text states: "The registration code has been forwarded to your email".

Below the form is an image of a mobile phone.

4.4. Downloading a Panel Layout File to pdCUE

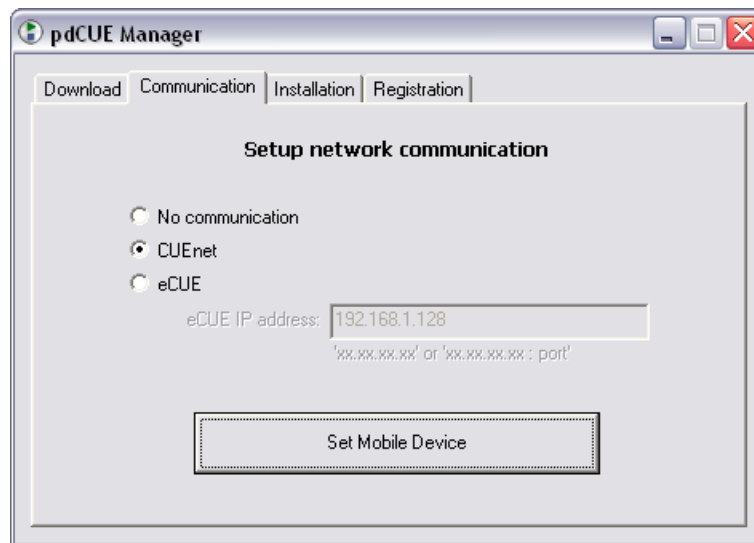

1. Connect a Mobile Device to your computer using a communication cable as described in the chapter titled **Installation and Registration of pdCUE**.
2. Run the **pdCUE Manager** program.
3. Click the **Download** tab.

4. Select the *.wdf file you wish to download to the pdCUE enabled Mobile Device.
5. Click the **Download to Mobile Device** button to install the application (*.wdf).

4.5. Communication Setup
